

TELEHEALTH IMPLEMENTATION WORKSHOP

The California Telehealth Resource Center (CTRC) provides on-site implementation assistance to healthcare organizations starting or expanding a Telehealth program.

At the end of the session, participants will be given a telehealth roadmap template to follow with a clear idea of next steps and individual responsibilities.

Join CTRC for a half-day workshop session!

In the workshop, CTRC will guide participants in a half-day interactive work session designed to guide sites step-by-step through the five phases of developing a telehealth program.

To learn more about hosting a CTRC Telehealth Implementation Workshop, please contact:

Aislynn Taylor, CTRC Training and Outreach Coordinator
