

PAYERS & GOVERNMENT HEALTH PROGRAMS

Commercial Payers

Commercial payers include employer-sponsored and privately funded insurance providers. In California, the largest commercial insurers are Kaiser, Elevance (Anthem), and Blue Shield.¹

These plans vary in their coverage, cost, and reimbursement.

For specific information, contact the insurance provider of interest.

For a list of licensed health insurance providers in the state of California, visit the California Department of Insurance [List of Insurers Providing Health Insurance Coverage](#) webpage.
