

Digital Health Update (Part 1)

RPM, RTM, and More in the Medicare PFS CY 2025

November 12, 2024

Before We Get Started

CTRC does not provide legal advice. CTRC has no relevant financial interest, arrangement, or affiliation with any organizations related to commercial products or services mentioned in this session.

Zoom Tips

Muted on Entry

You are muted on entry.

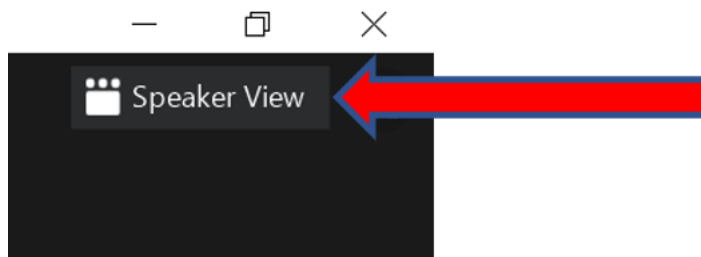

Open the Chat & Q&A

Please open the chat and use it liberally; we want to hear from you!

Send comments and feedback to **"Everyone"**

Session Recording

We are recording today's session to capture LIVE responses. The recording will be made public on YouTube @CaliforniaTRC.

Speaker View vs Gallery View

At the top right of your screen you can change the video panel to just show the main speaker, or to gallery view to see the speaker and other participants, depending on your preference.

Medicare Final Physician Payment Rule

Part 1

- Remote Physiological Monitoring/Management
- Remote Therapeutic Monitoring/ Management
- General care management services in RHCs and FQHCs
- Advanced primary care management services
- Digital Mental Health Treatment (Remote)
- FQHCs and RHCs

Part 2 ([Link](#))

- Telehealth – PHE Flexibilities
 - Originating Site
 - Geographic restriction
 - In-Person Requirement – Mental Health (Geographic and Originating Site)
 - Other Service Exceptions to Geographic and Originating (ESRD, Ambulance)
- Telehealth Flexibilities for Substance Use Disorder Treatment (“SUD”)
- Definition of “Direct Supervision”
- General Supervision for All Physical Therapy and Occupational Therapy Services
- New Advanced Care Management Services
- Congress

Remote Management

PHYSIOLOGICAL		THERAPUETIC	
Initial Set-up and Patient Education on Use of Equipment	CMS coverage and payment: Remote physiological monitoring; initial set-up and patient education on use of equipment	Initial Set-up and Patient Education on Use of Equipment	2024B CMS coverage and payment: Remote therapeutic monitoring (eg, therapy adherence, therapy response); initial set-up and patient education on use of equipment
Professional Service 20 minutes	2024 CMS coverage and payment Remote physiological monitoring treatment management services, physician or other qualified health care professional time in a calendar month requiring at least one interactive communication with the patient or caregiver during the calendar month; first 20 minutes	Professional Service 20 minutes	2024 CMS coverage and payment Remote therapeutic monitoring treatment management services, physician or other qualified health care professional time in a calendar month requiring at least one interactive communication with the patient or caregiver during the calendar month; first 20 minutes
Professional Service additional 20 minutes	2024 CMS coverage and payment: each additional 20 minutes (List separately in addition to code for primary procedure)	Professional Service additional 20 minutes	2024 CMS coverage and payment: each additional 20 minutes (List separately in addition to code for primary procedure)
Device Supply	Device(s) supply for data access or data transmissions to support monitoring of respiratory system, each 30 days	Device Supply Respiratory	98976 > 2024B CMS coverage and payment: \$47.27 (NF) device(s) supply for data access or data transmissions to support monitoring of respiratory system, each 30 days
		Device Supply Musculoskeletal	98977 > 2024B CMS coverage and payment: \$47.27 (NF) device(s) supply for data access or data transmissions to support monitoring of musculoskeletal system, each 30 days
		Device Supply Cognitive Behavioral	98978 > No CMS coverage/payment; \$0.00 valuation – “contractor priced” device(s) supply for data access or data transmissions to support monitoring of cognitive behavioral therapy, each 30 days

Compare to new Medicare Digital Mental Health Treatment (Remote)

Today's Speaker

Robert Jarrin is a strategic advisor on digital health and medicine to various companies, associations, and medical organizations. He formerly served for nearly 20 years as a Senior Director, Government Affairs for Qualcomm Incorporated. Mr. Jarrin's areas of expertise include CMS coding, coverage, and payment of digital medical services, FDA regulation of digital health, and ONC policies on Health IT interoperability. He has served on several Federal Advisory Committees covering innovation, safety, health IT standards, and consumer advocacy. He has testified numerous times before the U.S. House of Representatives providing expert testimony on innovation, mobile medical apps, and the 21st Century Cures Act. He currently serves as a member of the American Medical Association (AMA) Digital Medicine Payment Advisory Group (DMPAG).

Mr. Jarrin holds several academic adjunct faculty appointments, including the Yale University School of Medicine - Department of Internal Medicine, the George Washington University School of Medicine and Health Sciences - Department of Emergency Medicine, and the Georgetown University School of Medicine. Robert holds a JD from Northeastern University School of Law.

2025 Medicare Physician Fee Schedule Final Rule

Issued Friday, November 1, 2024

Found here: <https://www.federalregister.gov/public-inspection/2024-25382/medicare-and-medicaid-programs-calendar-year-2025-payment-policies-under-the-physician-fee-schedule>

Three Topic Areas of Interest for Today's Presentation:

- **Digital Mental Health Treatment (DMHT)**
- **General care management services in RHCs and FQHCs**
- **Advanced primary care management services**

Existing Remote Therapeutic Monitoring (RTM)

Four PE and MP only Codes: **98975**, **98976**, **98977** in effect 1/1/2022

New CPT edits in 2025 RTM Language

- **98975** > 2024B CMS coverage and payment: \$19.97 (NF)
 - Remote therapeutic monitoring (eg, therapy adherence, therapy response, **digital therapeutic intervention**); **initial set-up and patient education on use of equipment**
- **98976** > 2024B CMS coverage and payment: \$47.27 (NF)
 - **device(s) supply** for data access or data transmissions **to support monitoring of respiratory system, each 30 days**
- **98977** > 2024B CMS coverage and payment: \$47.27 (NF)
 - **device(s) supply** for data access or data transmissions **to support monitoring of musculoskeletal system, each 30 days**

Existing Remote Therapeutic Monitoring (RTM) – Cognitive Behavioral Therapy

One PE and MP only code for CBT: **98978** in effect 1/1/2023

- **98978** > No CMS coverage/payment; **\$0.00** valuation – “contractor priced”
 - *device(s) supply for data access or data transmissions to support monitoring of cognitive behavioral therapy, each 30 days*

RTM – Treatment Management Services (TMS)

PE, MP, and Work Codes = 98980, 98981 (in effect January 1, 2022)

Remote Therapeutic Monitoring / Treatment Management Services (Work)

- **98980** > 2024 CMS coverage and payment: \$50.60 (NF); \$30.29 (F)
 - Remote therapeutic monitoring treatment management services, physician or other qualified health care professional time in a calendar month requiring at least one interactive communication with the patient or caregiver during the calendar month; first 20 minutes
- **98981** > 2024 CMS coverage and payment: \$39.95 (NF); \$29.96 (F)
 - each additional 20 minutes (List separately in addition to code for primary procedure)

Digital Mental Health Treatment (DMHT)

CMS HCPCS G-Codes

G0552: Supply of digital mental health treatment device and initial education and onboarding, per course of treatment that augments a behavioral therapy plan

G0553: First 20 minutes of monthly treatment management services directly related to the patient's therapeutic use of the digital mental health treatment (DMHT) device that augments a behavioral therapy plan, physician/other qualified health care professional time reviewing information related to the use of the DMHT device, including patient observations and patient specific inputs in a calendar month and requiring at least one interactive communication with the patient/caregiver during the calendar month

G0554: Each additional 20 minutes of monthly treatment management services directly related to the patient's therapeutic use of the digital mental health treatment (DMHT) device that augments a behavioral therapy plan, physician/other qualified health care professional time reviewing information related to the use of the DMHT device, including patient observations and patient specific inputs in a calendar month and requiring at least one interactive communication with the patient/caregiver during the calendar month. (List separately in addition to HCPCS code G0553)

DMHT Limited to Specific Device Types

DMHT medical devices are limited to those...

1. Cleared under section 510(k) of the FD&C Act (including De Novo); and
2. Classified under 21 CFR 882.5801 which only include the following product codes:
 - FDA Product Code QVO: computerized behavioral therapy device for insomnia
 - FDA Product Code PWE: computerized behavioral therapy device for substance use disorders
 - FDA Product Code SAP: computerized behavioral therapy device for depressive disorders

DMHT G-Codes versus CPT

Language between existing CPT Codes and HCPCS G-Codes is too similar

- G0552 descriptor is indistinguishable from CPT 98978
- CPT 98975 was modified by CPT to include the word “intervention” for January 1, 2025
- G0552 includes set-up/education and supply of equipment; CPT are separate 98975 & 98978
- G0552 has no payment indefinitely starting January 1, 2025 (same as CPT 98978)
- CPT 98975 set-up/education is a Category I code, that is active, covered, and paid
- G0553 and G0554 are identical and “cross-walked” to 98980 and 98981
- Commercial payers typically do not utilize HCPCS G-Codes but do utilize CPT codes
- Only CMS recognizes, utilizes, and pays G-Codes
- However, both CMS and private payors recognize, utilize, and pay CPT codes

RHCs and FQHCs

from G0511 to CPT RTM and RPM Codes and new Digital Mental Health Treatment Codes

The end of G0511 as of January 1, 2025

- CMS proposed and finalized that RHCs and FQHCs may bill individual codes that make up the general care management HCPCS code G0511
 - o RPM, RTM, PCM, CCM, BPM, CMS-BH, CCCM, NPS, CPM, CHI, PIN
- HCPCS code G0511 will no longer be payable when billed by RHCs and FQHCs
- CMS is allowing a six (6) month RHCs and FQHCs allowance to come into compliance
 - Until July 1, 2025, to update billing mechanisms

RHCs and FQHCs

Transition from using
G0511

To using the CPT codes and the new CMS Digital Mental Health Treatment codes

Remote Management

PHYSIOLOGICAL		THERAPUETIC	
Initial Set-up and Patient Education on Use of Equipment	CMS coverage and payment: Remote physiological monitoring, initial set-up and patient education on use of equipment	Initial Set-up and Patient Education on Use of Equipment	2024B CMS coverage and payment: Remote therapeutic monitoring (eg, therapy adherence, therapy response), initial set-up and patient education on use of equipment
Professional Service 20 minutes	2024 CMS coverage and payment Remote physiological monitoring treatment management services, physician or other qualified health care professional time in a calendar month requiring at least one interactive communication with the patient or caregiver during the calendar month; first 20 minutes	Professional Service 20 minutes	2024 CMS coverage and payment Remote therapeutic monitoring treatment management services, physician or other qualified health care professional time in a calendar month requiring at least one interactive communication with the patient or caregiver during the calendar month; first 20 minutes
Professional Service additional 20 minutes	2024 CMS coverage and payment: each additional 20 minutes (List separately in addition to code for primary procedure)	Professional Service additional 20 minutes	2024 CMS coverage and payment: each additional 20 minutes (List separately in addition to code for primary procedure)
Device Supply	Device(s) supply for data access or data transmissions to support monitoring of respiratory system, each 30 days	Device Supply Respiratory	98976 > 2024B CMS coverage and payment: \$47.27 (NF) device(s) supply for data access or data transmissions to support monitoring of respiratory system, each 30 days
		Device Supply Musculoskeletal	98977 > 2024B CMS coverage and payment: \$47.27 (NF) device(s) supply for data access or data transmissions to support monitoring of musculoskeletal system, each 30 days
		Device Supply Cognitive Behavioral	98978 > No CMS coverage/payment; \$0.00 valuation – “contractor priced” device(s) supply for data access or data transmissions to support monitoring of cognitive behavioral therapy, each 30 days

Compare to new Medicare Digital Mental Health Treatment (Remote)

Advanced Primary Care Management Services (APCM)

APCM aims to improve primary care systems, health outcomes, lower mortality, and reduce disparities

- CMS finalized proposal to establish coding and payment for APCM services via three new HCPCS G-codes according in intensity levels:
 - o Level 1 (G0556) is for persons with one chronic condition;
 - o Level 2 (G0557) is for persons with two or more chronic conditions; and
 - o Level 3 (G0558) is for persons with two or more chronic conditions and status as a Qualified Medicare Beneficiary
- APCM services incorporate elements of existing care management and communication technology-based services into a bundle of services
- No time-based thresholds included in the service elements, intended to reduce administrative burdens associated with current coding and billing

Advanced Primary Care Management Services (APCM) – cont'd.

- Code requirements include:
 - Consent
 - Initiating visit
 - 24/7 access
 - Continuity of care
 - Comprehensive care management
 - Patient-centered comprehensive care plan
 - Management of care transitions
 - Care coordination
 - Enhanced communication
 - Population-level management
 - Performance measurement
- For MIPS eligible clinicians, the performance management service element can be satisfied by reporting the Value in Primary Care MIPS Value Pathway (MVP)
 - Starting in 2026 based on the 2025 performance year

Demo Two Column Text Heavy Slide

Column **Title**

Using columns can be a **nice way of presenting information**. Use both columns as part of the same information, or use each for their own separate purpose.

Use change in font size, color, bolding, and bullets/icons as needed.

Continued information in the second column.

Repeated text begins now. Using columns can be a **nice way of presenting information**. Use both columns as part of the same information, or use each for their own separate purpose.

End of demo content.

Optional
Text

Any other relevant info or call-outs can go here. **This will help visually break up the information being presented** (and be more digestible for viewers). **Use footer if necessary**, otherwise simply delete.

Demo Slide with Graphic

Optional **Title**

Put text and other info here. Please choose this or another graphic from the approved list of CTRC graphics.

Other **Info**

Put text and other info here. Please choose this or another graphic from the **approved list** of CTRC graphics.

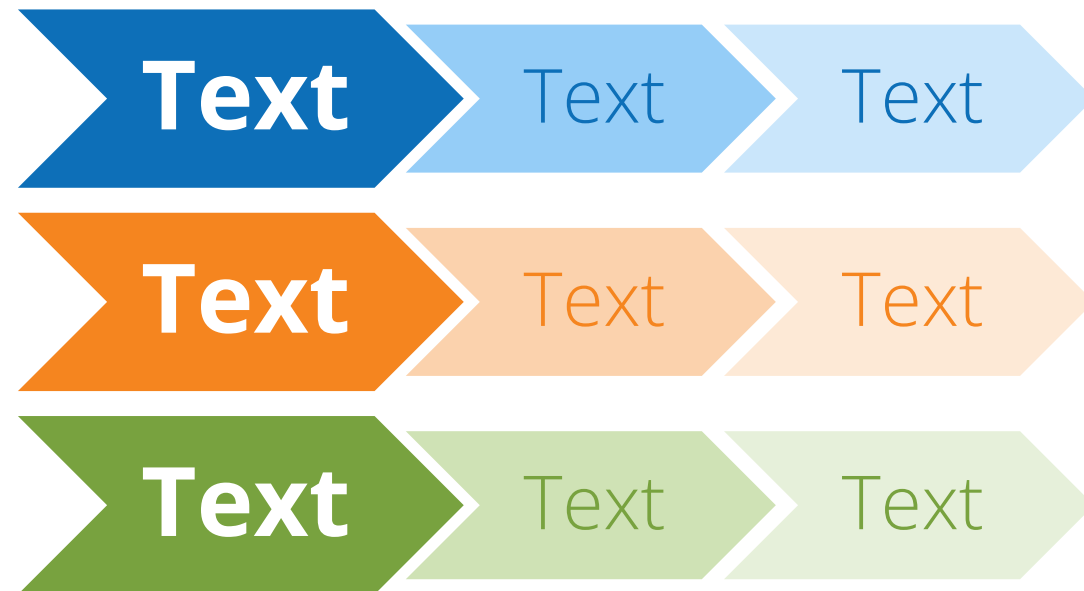

Demo Data Slide

Any relevant info about the chart goes here.

Keep text on chart minimal (1-2 words per “text” space).

Filler text to replace with your own about this data point and what you want to convey to your audience. Use as you wish.

Chart **Title** – insert new chart or use chart below. Use brand colors.

Demo Data Slide

Any relevant info about the chart goes here.

Keep text on chart minimal (1-2 words per “text” space).

Filler text to replace with your own about this data point and what you want to convey to your audience. Use as you wish.

Chart **Title** – insert new chart or use chart below. Use brand colors.

Transition Title **Slide**

Presenter Name, Title

Demo Text Heavy Slide

This is a text heavy slide. Try to use these sparingly as images and graphics catch your audience attention much faster.

- Bullet points should be short and clean
- Use them to highlight main points
- Use colors and backgrounds to create visual breaks and ease readability (such as blue section on right)

1. Bullet Title
Subtext of bullet goes here.
2. Bullet Title
Subtext of bullet goes here.
3. Bullet Title
Subtext of bullet goes here.
4. Bullet Title
Subtext of bullet goes here.

Demo Slide with Photo Overlay

Use background photographs from the approved CTRC photos to break up text-heavy slides.

You can use a blue overlay, echoing website, for brand alignment and to keep focus on text elements (when photo is decorative rather than focal point).

- Bullet points should be short and clean
- Use them to highlight main points
- Break up text with icons, color, etc.

**Point about
telehealth**

**Another
point about
networks**

**And a final
one about
partnerships**

**"What We're
Learning"**
or other text

Scope Medicare CY 2025 Digital Health

Part I

- Remote Physiological Monitoring/Management
- Remote Therapeutic Monitoring/ Management
- Digital Mental Health Treatment (Remote)
- FQHCs and RHCs

Part II

- Telehealth – PHE Flexibilities
 - Flexibility –
 - Originating Site
 - Geographic restriction
 - In-Person Requirement – Mental Health (Geographic and Originating Site)
 - Other Service Exceptions to Geographic and Originating (ESRD, Ambulance)
- Telehealth Flexibilities for Substance Use Disorder Treatment (“SUD”)
- Definition of “Direct Supervision”
- General Supervision for All Physical Therapy and Occupational Therapy Services
- New Advanced Care Management Services
- Congress
