Thank You, CTRC Funders

Established in 2006, the California Telehealth Resource Center (CTRC) exists to share **unbiased, no-cost digital health resources and consultative support services** with providers and patients located across all 58 California counties and beyond. As part of a collaboration of 12 regional and 2 national Telehealth Resource Centers, CTRC is **committed to implementing digital health programs for rural and underserved communities.**

The work of the CTRC would not be possible without funding and support from the Health Resources and Services Administration's **Office for the Advancement of Telehealth** and the **CA State Office of Rural Health**, part of the Department of Health Care Access and Information.
